

POLISHED

Smart, seamless, and durable epoxy or urethane floors that use a decorative stain for a mottled, modern look. Polished has an understated, decorative finish with surprising performance, making it popular in commercial spaces like universities, hospitals, workplaces stadiums, and retail stores. The color palette offers both vibrant and subtle colors, and the urethane version is UV-resistant for outdoor settings. Polished utilizes a stainable broadcast in the formulation that includes a biogenic, 100% renewable and carbon-negative component.
