A durable self-leveling, acoustic floor that is easy to maintain, comfortable underfoot and brings a contemporary design to commercial interiors. Smooth is offered in mono, a modern solid appearance, and duo, a two-color blend that inventively fuses two colors for a hand-painted look. Available in both epoxy and urethane formulations.

Color reproductions are as accurate as modern photography and quality printing methods can produce. For actual color, please request a sample. www.stonhard.com. ©2025 Stonhard
