

SAFETY STARTS WITH STONHARD FLOORS

Stonhard's seamless, abrasion, and corrosion-resistant, resinous floors support safety regulations and stand up to heavy traffic in manufacturing facilities.

PRODUCTS & INSTALLATION

Stonhard formulates and installs durable, poured-in-place flooring systems along with safety lines for aisle markings, equipment boundaries, emergency exit paths, loading dock safety, hazardous materials storage, high-voltage areas, pedestrian crosswalks, maintenance areas, and more.

THE PERFORMANCE YOU REQUIRE

- | | |
|---|--|
|  Abrasion Resistant |  Corrosion Resistant |
|  Slip Resistant |  Easy to Clean and Maintain |
|  High Traffic |  Impact Resistant |

THE DESIGN YOU DESIRE

Establish boundaries, indicate safe zones, and communicate important safety information with lines in yellow, red, green, or orange.

THE BOTTOM LINE

Safety demarcations play a crucial role in enhancing safety, organization, and efficiency in your manufacturing facility. Choosing the right floor and installer is crucial so that these color-coded markings are highly visible and long lasting to fulfill their vital role within your plant.

THE EXPERTISE WE PROVIDE

Stonhard has more than a century of manufacturing and installing seamless floors. With a consultative approach we bring exceptional product knowledge, the highest quality products, and comprehensive construction management expertise.

OUR CERTIFICATIONS

Stonhard is committed to sustainability and healthy products. We are a proud member of the U.S. Green Building Council, a member of the Manufacturer Advisory Panel for the HPD Collaborative, and listed with mindful MATERIALS (mM).
